

Karori Normal School

# Stationery List – Years 7 & 8

**For those opting - Bring Your Own Device**

## Optional Bring Your Own Device Information

- Optional BYOD is available to all Y7/8 students at KNS (bringing a device is not compulsory).
- Equity of access is important to us. We have some devices at school that all students can use as tools for learning.
- We will continue to monitor screen time and ensure students continue to develop their understanding of digital citizenship; being safe and their responsibilities online.
- Children will continue to learn in a variety of ways such as pen and paper, discussion groups, direct teacher learning, small group and class teaching. Devices are just one of the many learning tools that students use during the day.

If families wish to send a device to school, you will need to consider the following:

- A laptop (this includes Chromebooks) or a tablet with a minimum screen size of 7 inches.
- Must have wifi connectivity and web browser.
- No iPods or smartphones as these do not have the sophisticated functionality needed to be of real benefit to students' learning.
- A responsible user agreement must be signed by parents and students.
- This outlines security and insurance responsibilities.
- Individual device permissions must be signed before students may bring their device to school.

Parents who are considering buying a device, particularly Year 8's parents, should consider the expectations of their intended secondary school. Information for the following schools can be accessed via the links below. Please remember it will not be compulsory for your child to bring a device to KNS.

[Wellington College](#) - tablet or laptop recommended

[Wellington Girls'](#) - see page 9, chromebook, ultrabook, laptop, or other device recommended

[Wellington High](#) - laptops, notebooks, and MacBooks are recommended.

The following is a list of the stationery requirements for all Year 7 and 8 pupils who are using their own devices at Karori Normal School for the full school year 2024. If you are going to purchase a device for your child we have adapted the stationery requirements.

If you have any unused stationery from last year, we encourage you to use these items before purchasing new items.

### **Number required**

### **Item**
